**Agricultural Marketing Service** 

[Doc. No. AMS-ST-21-0083]

Plant Variety Protection Office: Notice of Request for Extension and Revision of a

**Currently Approved Information Collection** 

AGENCY: Agricultural Marketing Service, USDA

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C.

Chapter 35), this notice announces the Agricultural Marketing Service's (AMS) intention to request approval, from the Office of Management and Budget, for an extension of and revision to the currently approved information collection "Application for Plant Variety Protection Certification and Objective Description of Variety."

**DATES:** Comments on this notice must be received by [INSERT DATE 60 DAYS AFTER PUBLICATION IN THE FEDERAL REGISTER] to be assured of consideration.

ADDRESSES: Interested persons are invited to submit comments concerning this notice by using the electronic process available at www.regulations.gov. Written comments may also be submitted to the Plant Variety Protection Office (PVPO), Science and Technology, Agricultural Marketing Service, USDA, 1400 Independence Avenue SW, Room 2915–S, Stop 0274, Washington, DC 20250 or by email to AMS.PVPOForms@usda.gov. All comments should reference the docket number AMS-ST-21-0083, the date, and the page number of this issue of the Federal Register. All comments received will be posted without change, including any personal information provided, at www.regulations.gov and will be included in the record and made available to the public.

FOR FURTHER INFORMATION CONTACT: Mara Sanders, Plant Variety Protection Office, Science and Technology Program, AMS, USDA, 1400 Independence Avenue SW, STOP 0274, Washington, DC 20250-0274; Telephone: (202) 720-0859, or Email: Mara.Sanders@usda.gov or AMS.PVPOForms@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: "Application for Plant Variety Protection Certification and Objective Description of Variety"

OMB Number: 0581-0055.

Expiration Date of Approval: January 31, 2022

*Type of Request:* Extension and revision of a currently approved information collection.

Abstract: The Plant Variety Protection Act (PVPA) (7 U.S.C. 2321 et seq.) was established "To encourage the development of novel varieties of sexually reproduced plants and make them available to the public, providing protection available to those who breed, develop, or discover them, and thereby promote progress in agriculture in the public interest."

The PVPA is a voluntary user funded program which grants intellectual property rights protection to breeders of new, distinct, uniform, and stable seed reproduced, asexually reproduced, and tuber propagated plant varieties. To obtain these rights, the applicant must provide information which shows that the variety is eligible for protection and that it is indeed new, distinct, uniform, and stable as the law requires.

Application forms, descriptive forms, and ownership forms are furnished to applicants to identify the information which is required to be furnished by the applicant in order to legally issue a certificate of protection (ownership). The certificate is based on claims of the breeder and cannot be issued based on reports in publications not submitted by the applicant. Regulations implementing the PVPA appear at 7 CFR part 92.

Currently approved forms ST–470, Application for Plant Variety Protection
Certificate, ST–470 A, Origin and Breeding History, ST–470 B, Statement of
Distinctness, Form ST–470 series, Objective Description of Variety (Exhibit C), Form
ST–470–E, Basis of Applicant's Ownership, are the basis by which the determination, by
experts at PVPO, is made as to whether a new, distinct, uniform, and stable seed
reproduced or tuber-propagated variety in fact exists and is entitled to protection. The ST
470 application form combines Exhibits A, B, and E into one form. The information
received on applications, with certain exceptions, is required by law to remain
confidential until the certificate is issued (7 U.S.C. 2426).

Section 10108 of the Agriculture Improvement Act of 2018 (Pub. L. 115-334) (2018 Farm Bill) amended the Plant Variety Protection Act of 1970, as amended (7 U.S.C. 2321-2582) (Act), by adding a definition for the term "asexually reproduced" as it pertains to plant propagation and adding authority to offer intellectual property protection to breeders of new varieties of plants developed through asexual reproduction.

OMB 0581-0322 "Application for Plant Variety Protection Certification and Objective Description of Variety-Asexually Reproduced Varieties" was approved by OMB February 4, 2021, and includes the collection of application forms, descriptive forms, and ownership forms for asexually reproduced varieties. The combination of collections 0581-0055 and 0581-0322 will simplify the data collection for the Plant Variety Protection Office.

In addition to the incorporation of the forms in OMB 0581-0322, there have been 48 new crops added, 22 reinstated from a previous approval, and 14 added via additional approvals of 0581-0055 since 2018.

The information collection requirements in this request are essential to carry out the intent of the PVPA, to provide applicants with certificates of protection, to provide the respondents the type of service they request, and to administer the program.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1 hour per response.

*Respondents:* Businesses or other for profit, not-for-profit institutions, and Federal Government.

Estimated Number of Respondents: 95

Estimated Total Annual Responses: 1,950.5

Estimated Number of Responses per Respondent: 20.5

Estimated Total Annual Burden on Respondents: 2,045.9

Comments are invited on: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity

of the information to be collected; and (4) ways to minimize the burden of the collection

of information on those who are to respond, including the use of appropriate automated,

electronic, mechanical, or other technological collection techniques or other forms of

information technology. Comments may be sent to the person listed under FOR

FURTHER INFORMATION CONTACT by or before the deadline. All comments

received will be available for public inspection during regular business hours at the same

address.

All responses to this notice will be summarized and included in the request for

OMB approval. All comments will become a matter of public record.

Melissa Bailey,

Associate Administrator,

Agricultural Marketing Service.
